### BAND STORY

"

In 2006 the 20-year old Jonny M dedicated himself to German reggae. Unfortunately, this musical direction wasn't highly valued at first. However, this soon changed thanks to artists like Natty U, Ganjaman and Nosliw who helped grow the planted seeds of German reggae.

The young artist from Bergisch Gladbach followed this example of not throwing the towel in. Learning by doing - this is how Jonny M went from his own homestudio to having his work being mixed by Goldi (Goldvibes Records).

Even though times were not always bloomy, he made his way through with a mind full of fantasy, energy, enthusiasm and lots of love, spreading his messages and making the world a little bit of a better place one smile at a time.

Towards the end of 2009 his album „Europareggae“ was published on reggae-town.de. Jonny M was on a roll and few months after this, his „Harte Töne“ -EP was available on oleejah.de.
